September 8, 2020

Dear _____,

The IPM Institute of North America, Inc., an independent 501(c)3 non-profit formed to improve sustainability in agriculture and communities through Integrated Pest Management (IPM) and other sustainable practices, published its Midwest Grows Green (MGG) Lawn & Land Forum Toolkit in January of 2020 (see LawnandLand.org). The Forum Toolkit shares a wealth of practical information, data and case studies corroborating the efficacy of IPM and natural lawn care (NLC) strategies available for districts and local governments interested in sustainable lawn and sports field management.

We would like to offer _____ a sponsorship opportunity for this Toolkit and our overall sustainable landscaping outreach. MGG plans to coordinate a series of three training and informational webinars for Midwest Grows Green Week from March 22-26, 2021. The three webinars include the following: (1) A training workshop led by organic lawn care expert Chip Osborne to help landscape contractors add an organic lawn care service to their business, (2) a seminar that shares strategies to improve soil health on sports and recreational fields using compost and other organic matter dense materials, and (3) a seminar on viable and safe alternatives to glyphosate use in shoreline, coastline, and natural area management.

MGG Week sponsors can choose one of the three planned webinars to feature their logo on marketing and outreach materials. MGG will, also, recognize your sponsorship on the LawnandLand.org "Supporter" webpage. IPM Institute's and MGG's marketing reaches thousands of local eco-conscious citizens, lawn service providers and consumers.

The sponsorship registration form below details the various participation levels. Please review this document at your earliest convenience. Feel free to contact me at randerson@ipminstitute.org or (773)-878-8245 to discuss any questions you may have.

Sincerely,

Ryan Anderson
